## Riverside Park ~ Anderson Township Park District

If you've driven down Roundbottom Road in Anderson Township recently, no doubt you've seen a lot of exciting construction happening at Riverside Park.

The Motz Group has just finished installing the 165,000-square-foot **synthetic field** that will be used for football, soccer and lacrosse.

The Anderson Township Park District maintains a total of 7 athletic field complexes that offer sports of all varieties and for all ages. Understanding the demand from their residents for year-round athletic field usage, the Park District knew the best solution was a synthetic turf system. After much research and many field visits, 24/7®HP was their unanimous choice. The 24/7HP system incorporates our work-horse slit-film yarn, Envirofill® acrylic coated sand, and the Alveo Sports Layer shock attenuation pad. The decision to go towards the upgraded HP model was fueled by the District's desire for a high performance and environmentally superior system. The field footprint is over 165,000 sq ft and is permanently lined for football, full sized and youth sized soccer, and lacrosse tick marks.

The Park District will rent the new synthetic fields from 6 a.m. to 11 p.m. every day. Rental times include set-up, warm-up and take-down or clean-up

time and fields will be allocated based on priority. Park district youth or adult athletic programs of leagues, or Park-District sponsored event will have the first opportunities to use the fields. Nonprofit youth organizations based in Anderson Township will be next on the priority list and general youth users, select programs and adult users fall into group three. For-profit organizations, tournaments, clinics and camps with paid staff or trainers are also in the last group.

To learn more about The Motz Group's 'High Performance' system upgrades, please contact Zach Burns at 513.533.6452 or email at [info@themotzgroup.com](mailto:info@themotzgroup.com).
