Anderson Parks move to WebTrac for registration

Community Press staff report

The Anderson Township Park District will begin using WebTrac, a new online registration system, on Monday, Jan. 5.

A release from the park district said WebTrac includes the ability to search for programs online, view the availability of shelters, update household information, access past receipts and more.

Registration will be processed automatically and result in a faster, more efficient process for park patrons, the release said.

To use WebTrac for programs, patrons will need a "Household ID" number and residents who registered for any program in 2007 or 2008 should have received an ID and password via a postcard or e-mail.

Anyone who did not receive their Household ID and password will need to set up an account at www.andersonparks.com.

Registration forms will still be available to download from the Web site for those who choose not to register online.
